✅ Strong profitability improvement in 2025

⚠️ High inventory and receivables levels vs industry

Risk Mitigation Strategies

Strategies to mitigate identified risks:

Mitigation Strategy	Expected Outcome
Diversify supplier base across multiple countries	Reduce single-source supply risks
Implement inventory management systems	Optimize working capital and reduce holding costs
Establish forward contracts for key commodities	Stabilize procurement costs and margins
Develop cold storage and logistics capabilities	Reduce spoilage and improve profit margins

📊 3. EXECUTIVE SUMMARY

Company Overview

Shryan Al Jazeera is an established fruits and vegetables trading company in Saudi Arabia with 12 years of operations. The company has demonstrated strong financial performance with SAR 53.5M revenue in 2025 and solid profitability. With established supplier networks across multiple countries and local distribution channels, the company benefits from Saudi Arabia's growing fruits and vegetables market. However, high import dependency and seasonal cash flow variations present moderate risks.

Company History

📜 Established in 2014 as an Individual Establishment, Shryan Al Jazeera has grown from a small-scale operation to a significant player in Saudi Arabia's fruits and vegetables wholesale market. The company has built strong relationships with international suppliers and serves both local markets and regional export destinations.

SWOT Analysis

💪 Strengths

- Strong financial performance with consistent profitability growth
- Established supplier network across multiple countries
- Strategic location near Central Vegetable Market in Jeddah
- Diversified customer base with both domestic and export sales

⚠️ Weaknesses

- High dependency on imports (85%) exposing to supply chain risks
- Above-average inventory and receivables cycles
- Limited local sourcing capabilities
- Seasonal cash flow variations typical in agricultural trade

🚀 Opportunities

- Saudi Vision 2030 driving growth in fruits & vegetables market
- Expanding controlled-environment agriculture reducing import dependency
- Growing health consciousness increasing demand for fresh produce
- Regional export expansion to GCC and Levant markets

⛔ Threats

- Supply chain disruptions from geopolitical tensions
- Climate change affecting global agricultural production
- Increasing competition from large retail chains
- Water scarcity challenges in Saudi Arabia affecting local production
