📊 2. EXECUTIVE SUMMARY

Company Overview

Leaderchem FZCO is an established chemical distribution company operating from Jebel Ali Free Zone, Dubai since 2005. The company specializes in trading industrial raw materials including caustic soda, soda ash, and sodium bicarbonate across GCC and African markets spanning 38 countries. With 20 years of operational history, the company demonstrates stable financial performance with total assets of AED 41.6 million and revenue of AED 171.2 million in 2024. The company maintains strong equity position with AED 33.0 million in shareholders' equity and operates with a healthy current ratio of 4.87. Leaderchem benefits from strategic location in JAFZA with access to Jebel Ali Port and serves diverse markets across Middle East and Africa through established supplier relationships with major chemical manufacturers in Turkey, China, India, Egypt, and other countries.

⚙️ 7. OPERATIONS OVERVIEW

Core Activities

Business Description:	Import, export, and distribution of industrial chemicals including caustic soda (sodium hydroxide), soda ash (sodium carbonate), sodium bicarbonate, and related alkali chemicals. Trading in raw materials for detergent, glass, textile, water treatment, and industrial manufacturing sectors.

Industry Classification Codes

Code Type	Codes	Description
NACE Codes	20.13 - Manufacture of other inorganic basic chemicals; 46.75 - Wholesale of chemical products	Wholesale trade of industrial chemicals, inorganic basic chemicals distribution
HS Codes (6-digit)	2815 (Sodium hydroxide/caustic soda), 2836 (Sodium carbonates/soda ash), 2833 (Sodium bicarbonate), 2529 (Industrial minerals)	Sodium hydroxide (caustic soda) solid and aqueous; Sodium carbonate (soda ash); Sodium bicarbonate; Alkali chemicals and industrial minerals

MARKETS SERVED

38

GCC (UAE, Saudi Arabia, Qatar, Bahrain, Oman, Kuwait) and Africa (Nigeria, Ghana, Senegal, Tanzania, Cameroon, Ethiopia, Ivory Coast, Sierra Leone, Seychelles, Togo, Namibia, Guinea, and others)

Supply Chain

Main Suppliers:	SISECAM DIS TICARET A.S. (Turkey), GACL-NATCO Alkalies & Chemicals (India), Ekom Eczacibasi Dis Ticaret AS (Turkey), Alkim Alkali Chemical Inc (Turkey), OVODAN (Denmark), XING HUA International (China), TRICON (Turkey), SINOLIGHT (China), Qatar Detergents Primary Chemicals Co (Qatar), OMAN CHLORINE (Oman), ELZOMORODA (Egypt), DCM SHRIRAM LIMITED (India), CRYSTAL SALT (Egypt)
Payment to Suppliers:	Advance payment, CAD by mail, CAD through bank, 60 days from B/L, 90 days from B/L, 20%-80% split, 30%-70% split
Key Customers:	Industrial manufacturers, detergent producers, water treatment facilities, textile manufacturers, glass producers across GCC and Africa
Payment from Customers:	Typically 30-90 days based on customer creditworthiness and market practices

Activities Description

📦 Leaderchem FZCO operates as a specialized chemical distributor serving GCC and African markets with focus on alkali chemicals and industrial raw materials. Core products include caustic soda (solid and liquid forms), soda ash (light and dense), sodium bicarbonate, and specialty industrial chemicals. The company imports from established manufacturers in Turkey, China, India, Egypt, Bosnia, Qatar, Abu Dhabi, and Oman, then distributes to customers across Saudi Arabia, UAE, Qatar, Bahrain, Oman, Kuwait, and 20+ African countries including Nigeria, Ghana, Senegal, Tanzania, Cameroon, Ethiopia, Ivory Coast, Sierra Leone, Seychelles, Togo, and Namibia. Operations leverage strategic JAFZA location with direct access to Jebel Ali Port for efficient logistics and re-export capabilities.

2025-11

Gulfood Manufacturing 2025 Participation

Leaderchem FZCO registered as exhibitor for Gulfood Manufacturing 2025, showcasing commitment to food-grade chemical ingredients and industry networking

POSITIVE

2024-08

Company Profile on Multiple B2B Platforms

Enhanced digital presence with verified profiles on ReachUAE, UAE Yellow Pages, and international trade databases indicating active business development

POSITIVE

2024

Expansion to 38 Countries

Company expanded market reach to 38 countries across GCC and Africa, strengthening position as regional chemical distributor

POSITIVE

2023-2024

Revenue Growth Achievement

Achieved 4% year-over-year revenue growth from AED 164.6M to AED 171.2M demonstrating market expansion and customer base growth

POSITIVE

🌍 14. INDUSTRY & MARKET ANALYSIS

Industry Overview

Industry:	Chemical Distribution & Trading
Market Size:	Middle East chemical distribution market valued at USD 3.01 billion in 2024, UAE chemical logistics market at USD 11.27 billion in 2025
Growth Rate:	5.3% annually

SWOT Analysis

💪 Strengths

- 20-year established track record since 2005 with proven operational stability
- Strategic location in JAFZA with direct access to Jebel Ali Port (world's 6th largest container port)
- Strong financial position with equity ratio of 79.3% and current ratio of 4.87
- Diversified geographical presence across 38 countries in GCC and Africa
- Established relationships with major international suppliers across Turkey, India, China, Egypt
- Multiple tier-1 banking relationships including Citibank, Arab Bank, Europe Arab Bank
- Low debt-to-equity ratio of 0.26 indicating conservative financial management
- Consistent revenue growth trajectory with 4% YoY increase

⚠️ Weaknesses

- Small organizational size with only 15 employees limiting scalability
- High accounts receivable concentration (91.5% of current assets) creating liquidity pressure
- Lack of income statement transparency - profitability metrics not disclosed
- Declined retained earnings from AED 12.9M to AED 8.9M indicating possible profitability challenges
- Limited product diversification - focused primarily on alkali chemicals
- No manufacturing capability - pure trading model exposes to supplier dependency
- Small office space (64.65 sqm) may limit operational expansion
- Increased liabilities by 71.6% year-over-year requiring monitoring

🚀 Opportunities

- Middle East chemical distribution market growing at 3.56% CAGR through 2034
- UAE chemical logistics market expanding from USD 11.27B (2025) to USD 15.08B (2030)
- Saudi Vision 2030 driving downstream petrochemical expansion and specialty chemical demand
- Growing infrastructure and construction projects across GCC increasing chemical demand
- Water treatment and desalination growth in Middle East creating specialty chemical opportunities
- African industrialization presenting expansion opportunities in existing markets
- UAE's position as trade hub facilitating re-export and distribution expansion
- Digital transformation and e-commerce in chemical distribution enabling efficiency gains
- Sustainability focus driving demand for eco-friendly chemical formulations

⛔ Threats

- Intense competition from large multinational distributors (Brenntag, Univar, Azelis)
- Commodity chemical price volatility affecting margins and profitability
- Geopolitical tensions in Middle East and Africa impacting trade flows
- Supply chain disruptions and logistics challenges affecting reliability
- Regulatory complexity across 38 operating countries increasing compliance burden
- Currency fluctuations across multiple markets creating forex exposure
- Rising competition from local distributors in target markets
- Supplier consolidation potentially reducing sourcing flexibility
- Economic slowdown in key markets affecting customer demand
- Environmental regulations increasingly stringent on chemical handling and transport

✅ 15. CREDIT RECOMMENDATION

📋 Final Credit Assessment

Credit Rating:
AAA

Risk Level:
LOW

Recommended Limit:
SAR 34.2M

Maximum Exposure:
SAR 51.3M

Payment Terms:
60 days with 50% advance or LC confirmation for new/large orders

Review Frequency:
Quarterly

Credit Opinion:
Leaderchem FZCO presents a MEDIUM RISK credit profile with BB+ rating. The company demonstrates solid fundamentals including 20-year operational history, strong equity position (79.3%), excellent liquidity (current ratio 4.87), and established market presence across 38 countries. Key strengths include strategic JAFZA location, diversified banking relationships with tier-1 institutions, and stable revenue growth (+4% YoY). However, concerns include high accounts receivable concentration (AED 38M representing 91.5% of current assets), declining retained earnings, substantial liability increase (+71.6%), and lack of profitability disclosure. The company operates in a competitive chemical distribution market with thin margins typical of commodity trading. RECOMMENDATION: Approve credit facility with enhanced monitoring. Require 50% advance payment or confirmed LC for orders exceeding AED 3M. Implement quarterly financial review and maintain insurance coverage. The 20-year track record and strong balance sheet support creditworthiness, but working capital management and profitability trends require close monitoring. Credit limit of AED 5-8M appropriate based on equity base and revenue scale.

Detailed Action Plan

Area	Recommendation	Priority
Payment Terms Management	Implement 60-day payment terms with 50% advance for orders >AED 3M. Require confirmed LC for African market transactions where collection risk is higher.	HIGH
Financial Monitoring	Request quarterly management accounts and annual audited financials. Monitor accounts receivable aging, cash conversion cycle, and profitability trends closely.	HIGH
Credit Insurance	Consider credit insurance coverage for exposures exceeding AED 5M, particularly for African market transactions with extended payment terms.	MEDIUM
Relationship Review	Conduct quarterly credit reviews and annual on-site visits to assess operational status, inventory management, and customer portfolio quality.	MEDIUM
Covenant Monitoring	Implement financial covenants: maintain current ratio >3.0, debt-to-equity <0.5, and provide advance notice of ownership changes or major contracts.	MEDIUM
Market Intelligence	Monitor chemical commodity prices, supplier relationships, and major customer concentration to identify early warning signals of business disruption.	LOW

Risk Mitigation Strategies

Letter of Credit (LC) Protection: Require confirmed, irrevocable LC from tier-1 banks for transactions exceeding AED 3M or 60-day payment terms, especially for higher-risk African markets

Advance Payment Structure: Implement 50% advance payment requirement for new customers or orders >AED 3M to reduce exposure and improve cash flow alignment

Credit Insurance Coverage: Obtain trade credit insurance for aggregate exposure exceeding AED 5M to protect against non-payment, insolvency, or political risks in operating countries

Parent/Shareholder Guarantee: Consider personal guarantee from majority shareholder Hassan El Fil (80% owner) for credit facilities exceeding AED 8M as additional security

Inventory/Receivables Monitoring: Establish reporting requirements for accounts receivable aging (>90 days) and implement early warning triggers if receivables exceed 100 days sales outstanding

Cross-Default Provisions: Include cross-default clauses tied to banking relationships, ensuring notification if company defaults on obligations to Citibank or other primary lenders

🔔 16. MONITORING & TRIGGERS

Monitoring Triggers

The following events should trigger an immediate credit review:

Trigger Event	Action Required
Accounts Receivable >100 Days Sales Outstanding	Request detailed aging report, customer payment status, and implement enhanced collection procedures. Consider reducing credit limit by 25%.
Current Ratio Falls Below 2.5	Immediate financial review meeting, request cash flow projections, and assess working capital adequacy. Reduce payment terms to 30 days with advance payment.
Debt-to-Equity Exceeds 0.5	Review all borrowing facilities, assess debt servicing capability, and request detailed liability schedule with maturity profile.
Late Payment >30 Days	Suspend further shipments, escalate to senior management, implement payment plan, and consider legal action if exceeds 60 days.
Revenue Decline >15% Year-over-Year	Conduct business review, assess market conditions and competitive position, request updated business plan and financial projections.
Management/Ownership Changes	Full credit reassessment, meet new management team, review business strategy and financial commitments, update guarantees if applicable.
Negative News/Legal Issues	Immediate investigation, request management explanation, assess materiality and impact, consider credit limit reduction or suspension.
Banking Relationship Termination	Understand reasons for bank exit, assess financial health concerns, conduct enhanced due diligence, and implement stricter payment terms.

Early Warning Indicators

PAYMENT DELAYS	CREDIT UTILIZATION	FINANCIAL TREND
Normal	**N/A%**	**Stable**
vs. last quarter	of approved limit	12-month outlook

Review Schedule

📖 18. GLOSSARY & TERMS

Key Terms & Definitions

Term	Definition
PAYDEX Score	A score from 1-100 indicating how promptly a company pays its bills. 80+ is considered good.
Current Ratio	Current Assets ÷ Current Liabilities. Measures short-term liquidity. >1.0 is generally healthy.
Quick Ratio	(Current Assets - Inventory) ÷ Current Liabilities. More conservative liquidity measure.
Debt/Equity Ratio	Total Debt ÷ Total Equity. Measures financial leverage. Lower is generally better.
EBITDA	Earnings Before Interest, Taxes, Depreciation, and Amortization. Measures operational profitability.
DBT (Days Beyond Terms)	Average number of days a company pays past the agreed payment terms.
Viability Score	Predictive score assessing the likelihood of business continuity over 12 months.
Delinquency Score	Predictive score assessing the likelihood of severely late payments (90+ days).
CR (Commercial Registration)	Official business registration number issued by government authorities.
NACE Code	European industry classification system for categorizing business activities.
HS Code	Harmonized System code for classifying traded products internationally.
Zakat Certificate	Certificate proving compliance with Islamic tax obligations (Saudi Arabia).
