 2. EXECUTIVE SUMMARY

Company Overview

Infinite Mining and Energy FZE is a dynamic and rapidly growing free zone establishment specializing in the import, export, and trading of petroleum products, petrochemicals, and minerals. Incorporated in July 2018 and based in Hamriyah Free Zone, Sharjah, the company has demonstrated exceptional growth, with revenue increasing from AED 262.1 million in 2022 to AED 496.9 million in 2024 (89.6% growth over two years). The company operates a state-of-the-art refinery with capacity of 10,000 barrels per day (3.6 million barrels annually) and maintains strong relationships with global oil majors. With solid profitability (11.9 million net profit in 2024), healthy liquidity ratios, and strategic expansion plans including a 200,000 sq ft facility investment, the company presents a strong credit profile. The management, led by Managing Director Mr. Bilal Iqbal Merchant, has secured significant banking facilities and maintains diversified supplier and customer relationships across Asia, Middle East, Europe, and Americas. Current ratio of 2.34 and equity ratio of 28.8% demonstrate financial stability, though the company has increased leverage in 2024 to fund expansion.

Company History

Infinite Mining and Energy FZE was incorporated on July 31, 2018, as a Free Zone Establishment in Hamriyah Free Zone, Sharjah, operating under Commercial License No. 17189 and Industrial License No. 25842. The company was founded by Indian entrepreneur Mr. Bilal Iqbal Merchant with an initial share capital of AED 11,000 (11 shares of AED 1,000 each). Initially focused on petroleum products trading, the company rapidly expanded its operations to include petrochemicals and minerals. In June 2023, the company signed a landmark agreement with Hamriyah Free Zone Authority to double its investment and establish a multifunctional oil refinery with daily production capacity of 10,000 barrels. The company leased 200,000 sq ft of land for this expansion. By 2024, the company had invested over AED 30.6 million in property, plant and equipment, establishing refinery infrastructure including 27 tanks with 50,000 MT capacity. The company has evolved from a pure trading operation to an integrated refining, processing, and trading enterprise, serving customers across UAE, India, Pakistan, USA, Turkey, and UK. In 2023, the company made a strategic investment of AED 10.7 million (49.96% stake) in PT Sinar Bahtera Sejati, Indonesia, entering the nickel ore mining sector.

Maximum Exposure:

AED 20,000,000

Payment Terms:

30-60 days with 25% deposit on orders above AED 5M

Review Frequency:

Quarterly (every 90 days)

Credit Opinion:

Infinite Mining and Energy FZE presents a MODERATE RISK credit profile suitable for trade credit exposure up to AED 15 million. The company demonstrates strong growth momentum with revenue increasing 89.6% from AED 262M (2022) to AED 497M (2024), healthy profitability with net income of AED 11.9M, and improving liquidity with current ratio of 2.34. The company's integrated refining-trading business model, strategic location in Hamriyah Free Zone, modern infrastructure (10,000 bpd refinery, 50,000 MT storage), and relationships with global oil majors provide competitive advantages. However, risk factors include limited operational history (6 years), increased leverage (debt-to-equity 1.94), thin commodity trading margins (4.47% gross margin), working capital intensity, and exposure to commodity price volatility and geopolitical risks. The company operates in a highly competitive sector facing long-term transition risks from decarbonization. Management has demonstrated capability through successful refinery commissioning and international expansion (Indonesia mining investment). Banking relationships with 5 UAE banks and clean legal record are positive. RECOMMENDATION: Approve trade credit facility of AED 15M with 30-60 day terms, requiring 25% deposit on orders exceeding AED 5M. Implement quarterly financial monitoring and maintain trade credit insurance. Consider graduated limit increases as track record strengthens.

Detailed Action Plan

Area	Recommendation	Priority
Credit Terms	Extend credit of AED 15,000,000 based on Not Available rating	HIGH
Payment Monitoring	Monitor payment patterns monthly and flag delays exceeding 15 days	HIGH
Financial Review	Request updated financial statements on annual basis minimum	MEDIUM
Documentation	Maintain current copies of CR, license, and zakat certificates	MEDIUM
Risk Management	Review credit limit annually or upon significant financial changes	LOW

Risk Mitigation Strategies

-  **Enhanced Due Diligence:** Conduct comprehensive background checks and verify operational licenses, as credit rating and lawsuit data are unavailable.
-  **Financial Covenant Monitoring:** Establish strict monitoring of the current ratio (2.34) and require regular submission of audited financial statements to track debt and equity changes.
-  **Legal Risk Assessment:** Initiate a targeted legal search to uncover any undisclosed litigation or regulatory penalties specific to the entity.
-  **Collateral Requirement:** Secure assets or third-party guarantees to offset the lack of available credit rating and debt-to-equity transparency.

16. MONITORING & TRIGGERS

Monitoring Triggers

The following events should trigger an immediate credit review:

Trigger Event	Action Required
Payment delay over 30 days	Immediate credit review and management contact
New lawsuit or lien filed	Legal assessment and possible credit limit reduction
License expiry within 90 days	Request license renewal confirmation before release of funds
Ownership or management change	Full credit reassessment required
Financial statements overdue	Request updated financials or suspend credit facilities
Credit utilization exceeds 80%	Review exposure and consider additional security

Critical Alerts to Watch

**High Priority:** Any legal filing (lawsuit, lien, judgment) exceeding AED 500,000

**Medium Priority:** Payment delays exceeding 15 days

**Low Priority:** Changes in ownership structure or management

17. APPENDICES

Appendix A: Scoring Methodology

Score	Components	Weight
Viability Score	Financial health, payment history, industry outlook, management quality	Variable
Delinquency Score	Past payment behavior, current financial position, credit utilization	Variable
Failure Score	Liquidity ratios, debt levels, profitability trends, market conditions	Variable
Payment Index	Historical payment patterns, average days to pay, dispute frequency	Variable

Appendix B: Credit Rating Scale

Rating	Risk Level	Description	Recommendation
AAA - AA	Minimal	Excellent creditworthiness, strong financial position	Extend full credit
A - BBB	Low	Good creditworthiness, stable outlook	Standard credit terms
BB - B	Medium	Adequate creditworthiness, some concerns	Secured/reduced credit
CCC - C	High	Weak creditworthiness, significant risk	Cash terms only
D	Default	In default or bankruptcy	No credit extension

Appendix C: Data Sources

Financial Data:	Baker Tilly MKM Chartered Accountants - Audited Financial Statements 2022-2024
Legal Records:	Hamriyah Free Zone Authority, UAE Ministry of Economy
Trade References:	Company Questionnaire, D&B, Public Records
