3. EXECUTIVE SUMMARY

Company Overview

Infinite Mining and Energy FZE is a UAE-based free zone establishment engaged in import/export/trading of petroleum products, petrochemicals, and minerals. The company has demonstrated strong financial growth with revenue increasing from AED 262M in 2022 to AED 497M in 2024 (89% growth). Net profit grew from AED 6.3M (2022) to AED 11.9M (2024), reflecting robust operational performance and improved margins. The company operates a multifunctional oil refinery and storage terminal in Hamriyah Free Zone, Sharjah with strategic expansion underway.

Company History

Established in July 2018 (previously as Infinite Energy FZE), the company began operations in Hamriyah Free Zone specializing in petroleum trading. In 2023, the company entered into agreements with HFZA to expand operations, including construction of a 1,000 MT per day refinery and storage infrastructure with 27 tanks totaling 50,000 MT capacity. The company has progressively expanded its trading network across USA, Europe, Middle East, and Asia.

10. FINANCIAL RATIOS

Liquidity Ratios

Ratio	2024	2023	Ind. Avg	Status	Interpretation
Current Ratio	1.18	1.56	1.50	CURRENT RATIO	Declining liquidity position from 1.56 to 1.18, though still adequate. Indicates tighter working capital management as company scales operations.
Quick Ratio	0.87	1.44	1.00	QUICK RATIO (ACID TEST)	Significant decline from 1.44 to 0.87 due to inventory buildup. Company relying more on inventory conversion to meet short-term obligations.
Cash Ratio	0.17	0.36	0.30	CASH RATIO	Cash coverage of current liabilities declined from 0.36 to 0.17, indicating increased reliance on operational cash flows and credit facilities.

Profitability Ratios

Ratio	2024	2023	Ind. Avg	Status	Interpretation
Gross Margin	4.47%	3.79%	5.00%	GROSS PROFIT MARGIN %	Improving gross margin from 3.79% to 4.47%, indicating better pricing power and procurement efficiency despite commodity market pressures.
EBITDA Margin	3.66%	2.47%	3.50%	EBITDA MARGIN %	Strong EBITDA margin expansion from 2.47% to 3.66%, demonstrating operational leverage and cost control as revenue scales.
Net Margin	2.39%	2.28%	2.50%	NET PROFIT MARGIN %	Stable and improving net margin at 2.39%, close to industry benchmark. Good profitability control despite increased finance costs.
Return on Assets (ROA)	6.40%	7.50%	8.00%	RETURN ON ASSETS %	ROA declined from 7.50% to 6.40% due to significant asset base expansion (refinery construction). Expected to improve as new assets become productive.
Return on Equity (ROE)	18.83%	15.06%	15.00%	RETURN ON EQUITY %	Strong ROE improvement from 15.06% to 18.83%, well above industry benchmark. Demonstrates effective use of shareholder capital and leverage.

Leverage & Solvency Ratios

Ratio	2024	2023	Ind. Avg	Status	Interpretation
-------	------	------	----------	--------	----------------

Debt / Equity	0.99	0.07	1.00	DEBT-TO-EQUITY RATIO	Significant leverage increase from 0.07 to 0.99 due to refinery construction financing. Still within acceptable range but requires monitoring.
Debt / Assets	0.34	0.04	0.40	DEBT-TO-ASSETS RATIO	Debt-to-assets at 0.34 remains below industry benchmark of 0.40. Asset base growth outpacing debt accumulation.
Equity Ratio	34.00%	49.82%	35.00%	EQUITY RATIO %	Equity ratio declined from 49.82% to 34.00% due to increased leverage, but remains close to industry norm. Adequate equity cushion maintained.
Interest Coverage	5.68x	53.39x	4.00x	INTEREST COVERAGE RATIO	Strong interest coverage at 5.68x despite sharp decline from 53.39x. Well above minimum threshold of 4x, indicating comfortable debt servicing capacity.

Efficiency Ratios

Ratio	2024	2023	Ind. Avg	Status	Interpretation
Asset Turnover	2.68x	3.28x	3.00x	ASSET TURNOVER RATIO	Asset turnover declined from 3.28 to 2.68 as new refinery assets are being commissioned. Expected to improve once facilities reach full utilization.
Inventory Days (DIO)	24 days	7 days	20 days	DAYS INVENTORY OUTSTANDING	Inventory days increased from 7 to 24 days, reflecting strategic inventory buildup for expanded refinery operations. Slightly above industry benchmark.
Receivables Days (DSO)	37 days	48 days	45 days	DAYS SALES OUTSTANDING	Collection period improved from 48 to 37 days, well below industry average. Demonstrates effective credit management and strong customer quality.
Payables Days (DPO)	Not disclosed in source documents days	Not disclosed in source documents days	60 days	DAYS PAYABLES OUTSTANDING	Payables days not calculable from available data. Company appears to maintain shorter payment cycles with suppliers (advance/loading basis).
Cash Conversion Cycle	Not disclosed in source documents days	Not disclosed in source documents days	5 days	CASH CONVERSION CYCLE	Cash conversion cycle not fully calculable. Company operates with advance supplier payments offset by customer credit terms.

11. RISK ASSESSMENT

Predictive Risk Scores

Score Type	Score	Risk Level	Prob.	Meaning
Viability	78	GOOD	Strong	Company demonstrates strong revenue growth, improving profitability, and adequate capital structure. Expansion into refining and storage provides vertical integration. Some concerns around leverage increase and liquidity tightening, but within manageable levels.
Delinquency	85	LOW	Low	No evidence of payment delays. Customer payment track record appears strong with improving DSO. Banking facilities in good standing.

Payment Behavior Analysis

AVG DAYS BEYOND TERMS 37 days late	% PAID ON TIME Not disclosed in source documents last 24 months	HIGHEST PAST DUE Not disclosed in source documents maximum amount

13. NEWS & RECENT DEVELOPMENTS

Timeline of Events

June 2023

Refinery Expansion Agreement Signed with HFZA

Infinite Mining & Energy signed agreement with Hamriyah Free Zone Authority to build multifunctional oil refinery with 10,000 barrels/day capacity and storage terminal with 20+ loading slots. Investment doubles company presence in free zone.

EXPANSION & GROWTH

14. INDUSTRY & MARKET ANALYSIS

Industry Overview

Industry:	Petroleum and Petroleum Products Trading
Market Size:	Not disclosed in source documents
Growth Rate:	3.7%

Country & Sector Overview – UAE Oil & Gas Trading Sector

Indicator	Latest	Comment
Market Size (2024-2025)	USD 11.2 billion (2024 estimate)	UAE oil and gas market valued at USD 11.2 billion in 2024 with projected growth to USD 20.4 billion by 2035
Forecast Growth (2025-2035)	5.0% CAGR	Driven by sustainability initiatives, digital transformation, increased energy demand, and strategic government investments in upstream and downstream capacity
Local Production Share	Not disclosed in source documents	UAE serves as major regional hub for petroleum products trading with strategic location connecting Asia, Europe, and Africa
Regional Trade Flow	Import & Export Hub	UAE exports petroleum products globally while importing crude and feedstock for domestic refining. Major trading partners include India, China, Japan, Saudi Arabia, and USA.
Key Risks	Commodity price volatility, geopolitical tensions in Middle East, global energy transition towards renewables, US sanctions on certain free zone entities involved in Iranian trade	
Key Drivers	Government investment in refining capacity expansion, strategic geographic location, free zone infrastructure advantages, growing Asian demand, petrochemical downstream integration	
Major Players	ADNOC, Emirates National Oil Company, TotalEnergies, BP, ExxonMobil, Shell, Gunvor, Trafigura, regional trading houses	

Summary: The UAE petroleum trading sector benefits from strategic location, world-class infrastructure, and government support. The market is experiencing steady growth driven by regional demand and export opportunities. Challenges include commodity volatility and regulatory pressures, but overall outlook remains positive with significant investments in refining and storage infrastructure.

MAXIMUM EXPOSURE

3,000,000 USD

PAYMENT TERMS

60-90 days with confirmed LC or parent guarantee

REVIEW FREQUENCY

Quarterly

Credit Opinion:

APPROVE WITH CONDITIONS: Infinite Mining and Energy FZE demonstrates strong growth trajectory with revenue increasing 89% from 2022 to 2024. The company shows improving profitability margins and sustainable ROE of 18.83%. Main concerns include leverage increase to 0.99x debt-to-equity (from near-zero) and tightening liquidity ratios. However, the expansion is strategic (refinery and storage infrastructure) and well-supported by banking facilities. Recommended credit limit: USD 3,000,000 with 60-90 day terms, backed by LC or parent guarantee. Close monitoring required for debt servicing and working capital adequacy during expansion phase.

16. MONITORING & TRIGGERS

Monitoring Triggers

The following events should trigger an immediate credit review:

Trigger Event	Action Required
Debt servicing stress: Interest coverage falls below 3.0x	Immediate credit review and potential limit reduction or guarantee requirement
Liquidity deterioration: Current ratio falls below 1.0x	Tighten payment terms to 30 days and request additional collateral
Profitability decline: Net margin drops below 1.5%	Review pricing strategy and cost structure; reassess creditworthiness
Payment delays exceeding 15 days beyond terms	Suspend further shipments until arrears cleared; escalate to senior management
License expiry or regulatory compliance issues	Suspend credit immediately until compliance restored and documented

Early Warning Indicators

PAYMENT DELAYS Normal vs. last quarter	CREDIT UTILIZATION Not disclosed in source documents of approved limit	FINANCIAL TREND Growing 12-month outlook
---	---	---

Critical Alerts to Watch

	High Priority: Zero tolerance
	Medium Priority: Payment delays — threshold: 15 days
	Low Priority: Changes in ownership structure or management

17. APPENDICES

Appendix A: Scoring Methodology

Score	Components	Weight
Viability Score	Financial health, payment history, industry outlook, management quality	Variable
Delinquency Score	Past payment behavior, current financial position, credit utilization	Variable
Failure Score	Liquidity ratios, debt levels, profitability trends, market conditions	Variable
Payment Index	Historical payment patterns, average days to pay, dispute frequency	Variable

Appendix B: Credit Rating Scale

Rating	Risk Level	Description	Recommendation
AAA – AA	Minimal	Excellent creditworthiness, strong financial position	Extend full credit
A – BBB	Low	Good creditworthiness, stable outlook	Standard credit terms
BB – B	Medium	Adequate creditworthiness, some concerns	Secured / reduced credit
CCC – C	High	Weak creditworthiness, significant risk	Cash terms only
D	Default	In default or bankruptcy	No credit extension

Appendix C: Data Sources

Source Type	Details
Commercial Registry	Official government commercial registration records and gazette publications
Financial Statements	Audited or management accounts submitted by the subject company
Tax & Regulatory Bodies	National tax authority records, VAT/Zakat compliance certificates
Legal & Court Records	Public court filings, judgment registers, and lien records
Trade References	Direct supplier and customer interviews and payment history surveys
Banking Information	Bank confirmation letters and banking relationship disclosures
News & Media	Licensed press databases, official press releases, verified news outlets
Industry Databases	Sector reports from recognized research agencies and trade associations
On-Site Visits	Field visits, management interviews, and facility inspections where conducted

 Analyst Comment on Data Quality

Data Quality:	High
Limitations:	1. EBITDA for 2022 calculated from available components (net profit AED 6.3M + assumed minimal depreciation = approx. AED 6.3M); 2. Payables days and full cash conversion cycle not calculable due to insufficient cost breakdown data; 3. 2025 projected figures provided by management not independently verified; 4. Bank facility utilization percentages not disclosed; 5. Details on litigation case mentioned in external search (Indonesian bank case) not confirmed in company-provided documents; 6. Subsidiary Wonder Star Trading LLC financials not separately disclosed; 7. Associate PT Sinar Bahtera Sejati shown at cost (operations not yet commenced per notes); 8. Inventory valuation methods applied but no impairment testing details provided.
Analyst Note:	Financial data sourced from audited financial statements for years ending December 31, 2022 (Behl, Lad & Al Sayegh), December 31, 2023 (Baker Tilly MKM), and December 31, 2024 (Baker Tilly MKM). All statements prepared in accordance with IFRS and UAE regulatory requirements. Supplementary information obtained from company questionnaire dated February 23, 2026, and public domain sources. Data quality assessed as HIGH with comprehensive audited statements covering three full fiscal years. Main limitation is absence of detailed subsidiary financials and full breakdown of cost components for working capital analysis.
